

Winter is Here ... the Elk are back!

We are grateful for our crew at Salmon Run—we truly appreciate everyone working here and feel we are a team. Accomplishing improvements on the course is no easy matter, especially during the winter months. It's easier to sit on a mower during the summer and keep up with the growing grass. But winter requires shovels, chainsaws, blowers, walk-behind (push) greens mowers, more sand and divot repair tools. Be sure to thank one of the crew—inside our out—during this holiday season of appreciation.

It is vitally important to keep carts on the paths during our soggy season (see page 3). As we move through the winter months we'll be setting up some par 3's (on the par 4 & 5 holes) to help isolate areas being worked on. We thank you for your cooperation.

Congratulations to Mike Cornelius and Rob Marks for the winning entries in our "Name the Café" contest. Mike won a free breakfast and Rob won a round of golf. Seems fitting that the Fairway News is announcing the Fairway Café! All homemade food with specials each day. Come in for some soup during the cold winter months. Of course, there may be times we'll be closed if the course is closed, and it's terrible, stormy weather but we will endeavor to be open each day.

As we close out 2017 we'd like to extend a special thank you to everyone who came golfing this past year. We appreciate all the support and look forward to seeing you all in 2018.

~ Happy Holidays to you and yours.

Turkey Trot Greenskeepers

We had FUN! And the weather wasn't bad either. A bit on the chilly side with a short frost delay had everyone teeing off at 10 AM. The greens weren't mowed (part of the revenge) and the pin placements were challenging but not impossible. With the tees moved forward to green or gold there were a few big hitters who drove a few of the par 4's making for some very low scores. The Team from Del Norte made up of Jeff Mitchel, James Haben, Tom Owen and Norm Wilder took home large turkeys as well as a round for 4 at Grants Pass Golf Club. A 3-way tie for 3rd place resulted in a chip off where the Team of Mike Cornelius, Bruce Kells, Bob Almada and Dale Riley won turkey breasts and rounds of golf at Cedar Bend. Matt Hubbard and Nathan Orman (employees who play golf) won Cornish game hens and crying towels for 3rd place. Taking home sportmen's honors were the team of Dan & Gretchen Ford, Mark Newhouse and Don Judson with turkey towels & stuffing. Thanks to everyone for coming. We are ready for the 2018 Tournament season. The greenskeepers will be back next year with tougher pin placements and more challenges.

THANKS TO YOU!!

A special thank you to George Rhodes of Asana Grille and Art Alley Grille for his help in setting up the Fairway Café. From getting us some kitchen equipment to technical support we truly appreciate his expertise.

Thanks to Mike Meyers—our newest employee—for his expertise in organization and jack-of-all trades ability. If you haven't met Mike please be sure to say hi.

To the Ladies Club for decorating the clubhouse for fall, Thanksgiving and Christmas seasons.

Darrel Nelson and the crew at Freeman Rock for their incredible support throughout the year from improving our flower beds to sanding the greens!

Steve Geney for all the “extra” equipment he's supplied to us during this fall. In addition we have more irrigation repair parts than we ever imagined.

Tony Baron & the City of Brookings for their support of EMT and the ongoing projects.

Drone Videos & Salmon Run

We are launching our new drone videos. Many have seen our “short” on Facebook and commented about it. We'll be posting each hole—a flight from Tee to Green—on the website with links to the YouTube videos. Please feel free to pass those on to friends who've never played Salmon Run.

Of course this isn't the golf course but seeing all the white in Alaska makes us appreciate all the green we usually see here. Even if it's a little soggy, it's still playable—golfers in Alaska have to wait till spring!

DAMAGE TO THE COURSE

Please don't be the golfer who does this to the course ... we work hard to keep it playable but this is devastating damage that is very hard to recover from—for months! This picture doesn't do justice as to the extent of the damage where 8” muddy ruts transected the approach. We have surveillance on the course and while the cameras were intended to catch where the elk were getting on the course they have also been very enlightening as to the cart behavior of some golfers.
