Salmon Run Golf Course Newsletter

July 2019

## Mid Summer

It seems we were just putting out the June newsletter and now we're back at it. When we look back at the previous month it's hard to remember everything that happened—mainly due to the variety of events. Some of the events are good such as parties in the new Occasion Hall or compliments on the condition of the course. Other events we might be trying to forget—like a flood on fairway #6 due to another pipe breaking followed by another pipe breaking when testing the repair. However, many times these “forgettable” events have a silver lining. In the case of the #6 fairway it was the discovery of air vent valves that help to “blow off” when re-charging the water line. These valves had been buried under turf, sand, mud—and were so deep that they didn't work to let out the air. Now that we have them exposed again, they work!

June was filled with tournaments, retirements, engagements, junior camp, and more. Not to mention the golfers who came to see Salmon Run during the beautiful time of the year. Wildlife has been growing and we're seeing more fawns prancing around the fairways. We've caught up (finally) on maintenance and the equipment seems to be running due to the efforts of our mechanic, John Marrington.

Business League has been running every Tuesday with quite a few golfers having a great time. The Fairway Café is part of the Wild Rivers Coast Food Trail and we have the passport books and our own “stamp” for patrons to sport on their quest for prizes. The Salmon Run Ladies Club started match play and are promoting their tournament “Catch the Wave” the first of August.

Have you noticed the new picnic tables on the clubhouse deck? These beautiful cedar tables were donated to the course by the Salmon Run Men's Club, Salmon Run Ladies Club and Ray & Wendy Hughes. They are a much needed addition and with the umbrellas provide some great viewing for the afternoons. So come for lunch or breakfast and enjoy the deck. Thanks so much for this donation!

July is starting out busy so please remember to make tee times and fix your ball marks!

## Brookings Harbor Educational Foundation Tournament

June 1st was the 3rd Annual BHEF Tournament. The tournament raises money for a variety of causes within the school system and helps to support children in the classroom as well as teachers. The field of 15 teams teed off early and rocketed around the course finishing in record time. In the end, the “string thing” proved successful for the winning team from ReMax. Bret Curtis, Peter Flanderka, Steve Robinson and Michael Lange set a new record for the Las Vegas style tournament. Over 20 students donated their Saturday morning to help with the tournament that also featured a Hole-In-One by Coast Auto. No one managed to win the car but there were plenty who came close! The Fairway Café provided pulled pork, baked beans, salad and dessert to finish off the tournament while raffle prizes and auction items were divided up. BHEF is looking to move the tournament later in the summer of 2020 and avoid some of the conflicts with soccer and little league.
